EXPERIENCE

DevPoint Labs, Salt Lake City, UT — Full-Stack Web Developer

MAY 2016 - JULY 2016

Intensive course with emphasis on Ruby on Rails, but spent several weeks on JavaScript (ES6) and React, worked in groups, pairs, and individually on multiple projects. Group project built during hackathon came in second place. Exposed to latest technologies, learned best practices for industry.

United Way of Salt Lake, Salt Lake City, UT — Continuous Improvement Manager, Data Integration

AUGUST 2014 - MAY 2016

Advocated for and led implementation of new database for four community partners within a 10 month period. Streamlined data collection to improve the efficacy and focus of organizational programs.

United Way of Salt Lake, Salt Lake City, UT — Database Administrator

FEBRUARY 2013 - AUGUST 2014

Managed CRM database, established processes to ensure data quality, trained staff and managed use of database across organization.
